SUMMARY

I am a passionate frontend developer focused on creating user-friendly and efficient web applications. I have experience with technologies like HTML, CSS, JavaScript, and React. I am always eager to learn and enjoy working in a team environment. My goal is to improve my skills through real-world projects and grow professionally.

EXPERIENCE

Frontend Developer 03.2026 – 05.2026

Security AI (Team Project) · front-ai-security.tensorsoft.uz

- Built a real-time AI chat application with SSE streaming and typewriter text effect as part of a 3-person team.
- Implemented JWT-based authentication with OTP email and device verification flow.
- Developed file analysis, editing, and hash computation features via AI.
- Added multi-language support (Uzbek, Russian, English) using next-intl.
- Created folder-based chat organization with context-menu management.
- Integrated three AI providers (OpenAI GPT, Google Gemini, Anthropic Claude).
- Set up Docker deployment with GitLab CI/CD pipeline.
- Used feature-based modular architecture with Zustand and TanStack Query.

Frontend Developer

E-Commerce Dashboard (Test Task) · frontend-test-task-hazel.vercel.app

- Built a full-featured e-commerce dashboard with product catalog, shopping cart, and order management system.
- Implemented JWT-based authentication with access/refresh token flow and Axios interceptor for automatic token rotation.
- Developed product CRUD operations with category filtering, search, and pagination using TanStack Query.
- Added persistent client state (cart, favorites, auth) using Zustand with localStorage middleware.
- Created role-based routing with protected dashboard and admin panels via Next.js middleware.
- Integrated dark/light theme toggle using next-themes with system preference detection.
- Used feature-sliced modular architecture with service layer, custom hooks, and TypeScript strict mode.
- Set up form validation with React Hook Form and Zod, styled with Tailwind CSS v4.

PROJECTS

Pizza Ordering Website HTML, CSS, JS

- Responsive pizza ordering website with an intuitive user interface.
- Includes ordering screen, dynamic cart to manage items, and secure checkout.

Weather Forecast React, API Integration

- Modern weather forecast website that displays today's weather and weekly forecast.
- Provides users with real-time temperature, weather icons, and condition summaries.

Todo List JavaScript, CSS

- Simple and efficient Todo application that allows users to CRUD tasks.
- Features a clean and responsive user interface.

Single Page Application React, React Router

- Dynamic Single Page Application (SPA) with smooth navigation and fast performance.
- Website loads content dynamically without refreshing the page.

EDUCATION

Tashkent University of Information Technologies

2019 – 2023

Bachelor's in Information and Educational Technologies

SKILLS

HTML CSS JavaScript React Next
Tailwind CSS Material UI Redux Toolkit
Context API Axios TanStack Query
Zustand shadcn/ui CI/CD Socket.IO
React Hook Form Zod JWT Auth
SSE Streaming

INTERESTS

Financial Technology

Exploring fintech solutions, blockchain, digital payments, and AI-driven finance.

Hiking & Outdoors

Exploring nature trails, national parks, and capturing landscape photography.
